WEEKLY ANALYSIS

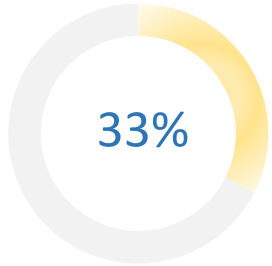

During Week 19–25 October 2026, a total of 39 maritime incidents were reported globally, comprising 12 maritime incidents, 02 piracy and armed robbery incidents, 02 smuggling incidents, 04 IUU fishing incidents, 02 narcotics-related incidents, 13 other incidents, 03 maritime environmental pollution incidents and 01 irregular human migration incident. In addition, 09 weather-related incidents were recorded, including 04 tropical cyclones and 05 earthquakes. Maritime security incidents remained a concern, particularly in the Strait of Hormuz and surrounding waters, where reported attacks on vessels highlighted continuing risks to commercial shipping. Sri Lanka recorded a smuggling incident off Udappuwa, Puttalam, involving the seizure of 60 sacks of Kendu leaves and two Indian dhows and two local dinghies. One narcotics-related incident was reported at Naotunna Beach, Thalalla, where authorities recovered 21 sacks and travel bags containing narcotics. A further narcotics incident was reported in Indonesia involving the tanker GLOBAL 168, reportedly carrying 1.16 tones of ketamine. Four IUU fishing incidents were reported across Sri Lanka, Indonesia, and India. One irregular human migration incident was reported in Malaysia, where authorities intercepted a boat carrying 57 Indonesian migrants. Three maritime environmental pollution incidents were recorded, involving an oil spill in the United Arab Emirates, ship-emission concerns in Malaysia, and marine environmental protection initiatives in Kuwait.

Recommendations: Strengthen maritime surveillance, AIS monitoring and real-time intelligence sharing, particularly in high-risk shipping areas such as the Strait of Hormuz and surrounding waters. Enhance monitoring of vessel accidents, fires, groundings and distress situations to support timely information dissemination and search and rescue (SAR) preparedness. Strengthen Sri Lankan coastal surveillance and intelligence-led operations to counter smuggling and narcotics trafficking, particularly along vulnerable coastal areas. Maintain effective IUU fishing enforcement, irregular migration monitoring and maritime environmental protection measures while promoting regional cooperation and the timely sharing of maritime incident information among relevant stakeholders.
