WEATHER FORECAST FOR SEA AREAS AROUND THE ISLAND DURING NEXT 24 HOURS

Issued at 05.30 a.m. on 12 Sep 2026

**DEPARTMENT OF METEOROLOGY
SRI LANKA**

CONDITION OF THE RAIN

Showers may occur at several places in the sea areas off the coast extending from Puttalam to Matara via Colombo and Galle. Showers or thundershowers may occur at several places in the sea areas off the coast extending from Mullaittivu to Batticaloa via Trincomalee during the evening or night.

WINDS

Winds will be South-westerly. Wind speed will be (30-40) kmph.

Wind speed can increase up to (50-60) kmph at times in the sea areas off the coast extending from Hambantota to Pottuvil.

Wind speed can increase up to 50 kmph at times in the sea areas off the coast extending from Chilaw to Kankasanthurai via Mannar.

STATE OF SEA

The sea areas off the coasts extending from Hambantota to Pottuvil will be rough at times.

The sea areas off the coasts extending from Chilaw to Kankasanthurai via Mannar will be fairly rough at times.

The wave height may increase about (2.0 – 3.0) meters in the sea areas off the coast extending from Chilaw to Pottuvil via Galle, Matara and Hambantota.

There is a possibility of seawater inundation over the near shore areas extending from Beruwala to Matara via Galle.

The naval and fishing communities who are engaged in fishing and naval activities in the above sea areas are requested to be vigilant in this regard.

SURFACE ANALYSIS CHART

This analysis charts show the surface pressure pattern over Sri Lanka and the surrounding area. They display isobars (lines of equal pressure) and indicate areas of high (H) and low pressure (L) along with their central pressure value. Isobars are represented by solid blue lines, spaced every 1 hPa. High pressure is usually associated with mainly dry, settled weather with light winds, while low pressure is normally associated with unsettled weather, which is often wet and windy. The lower the pressure, generally the stronger the winds and the heavier the rain.

The map shows Coordinated Universal Time (UTC) and the local time is UTC+5.30.
